

Try Together

Start

Put

in a

Get 9 red squares. Take turns.

Try

Pick a tile. Put that number of red squares on the other part of the mat. Ask your partner to say an addition sentence to find the number of squares in all.

Say: "5 plus _____ equals _____."

Put the tile aside. Remove your squares. Repeat until the  is empty.

Try Again

Put the tiles back in the . Repeat the activity. Talk about how joining two parts helps you to find the number of squares on the whole mat.
